Admin dash board - This is the landing page after login.

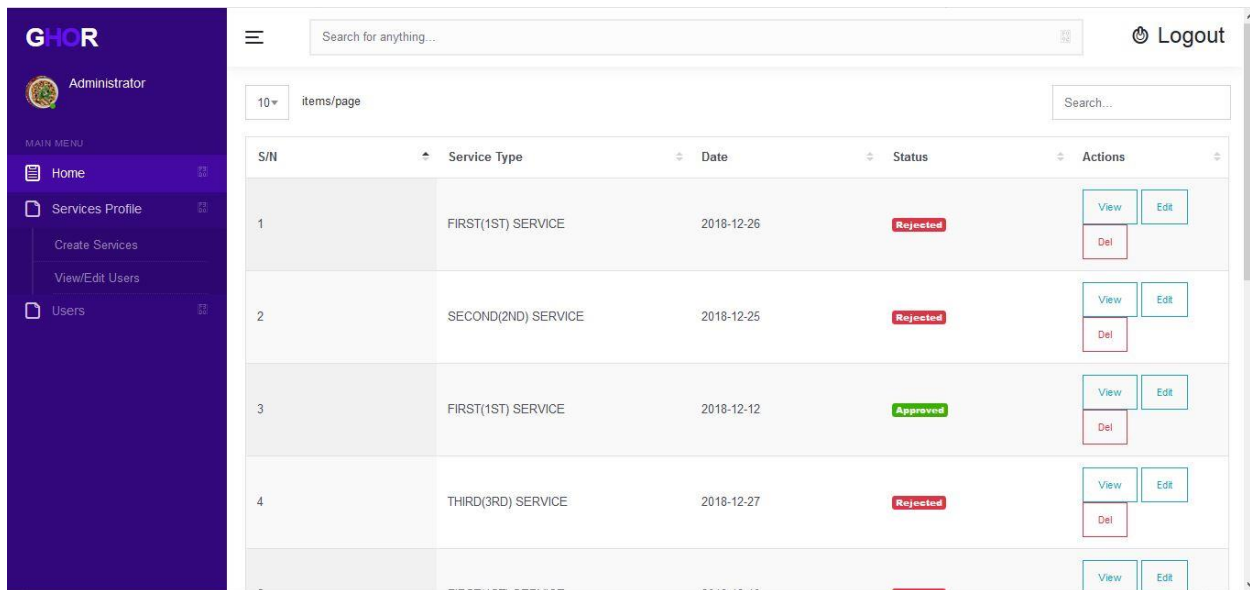

Step 3

The screenshot shows the 'Service Type' form in the GHOR application. The left sidebar contains a 'MAIN MENU' with 'Home', 'Dashboard', 'Services Profile', and 'Users'. The 'Services Profile' section is expanded, showing 'Create Services', 'View/Edit Users', and 'Users'. The main content area has a 'Service type' header and a 'Service Component' section. The 'Service Component' section includes a 'Service Type' dropdown menu (set to 'First Service'), a 'Date' input field (set to 'mm / dd / yyyy'), and an 'Opening Prayer' section. The 'Opening Prayer' section has 'From' and 'To' input fields, an 'OverShot Time' dropdown menu (set to '1 - 5 Mins'), and a 'Quality' dropdown menu (set to 'Fair'). At the bottom of the form are 'Previous' and 'Next' buttons.

To create services: Click on “services profile” Under services profile, click on create services, fill in the form and click on next till the form is completely fill, then click on submit button to save the data in the database.

Step4

The screenshot shows the 'Services Profile' table in the GHOR application. The table has columns for S/N, Service Type, Date, Status, and Actions. The table contains 5 rows of data. The 'Status' column shows 'Rejected' for rows 1, 2, and 4, and 'Approved' for row 3. The 'Actions' column contains 'View', 'Edit', and 'Del' buttons for each row.

S/N	Service Type	Date	Status	Actions
1	FIRST(1ST) SERVICE	2018-12-26	Rejected	View Edit Del
2	SECOND(2ND) SERVICE	2018-12-25	Rejected	View Edit Del
3	FIRST(1ST) SERVICE	2018-12-12	Approved	View Edit Del
4	THIRD(3RD) SERVICE	2018-12-27	Rejected	View Edit Del
5	FIRST(1ST) SERVICE	2018-12-15	Rejected	View Edit Del

To edit the services, Click on view/Edit services to edit,delete and view each services respectively.
